# IEEE P802.3cw 400 Gb/s Operation over DWDM systems PAR withdrawal request to NesCom

---

## Motion:

Approve forwarding IEEE P802.3dw PAR withdrawal request to NesCom

## Reason for the withdrawal:

Lack of Interest

## Explanation for withdrawal:

The main reason is the coherent optics market cycles. The IEEE P802.3cw project has missed the cycle for 400 Gb/s coherent optics, whereas the IEEE P802.3dj 200 Gb/s, 400 Gb/s, 800 Gb/s, and 1.6 Tb/s Ethernet project is better aligned to the cycle for 800 Gb/s. The IEEE P802.3dj project continues to see significant volunteer participation with, on average, around 100 individuals attending meetings, with many contributions.
