IEEE MILESTONE

Origin of the IEEE 802 Family of Networking Standards, 1980-1999

The necessity to standardize computer Local Area Networks (LANs) resulted in the IEEE Computer Society sponsoring LAN Standard Project 802 in 1980. Four 802 Working Groups formed by 1999 proved particularly successful and transformative: IEEE 802.1 (Bridging), IEEE 802.3 (Ethernet), IEEE 802.11 (Wi-Fi@), and IEEE 802.15 (Wireless Personal Area Networks). IEEE 802 standards defined ever-expanding networking speeds and features, thus enabling the seamless interconnection of computing devices worldwide.

May 2024

Opening items

- 1.00 Meeting called to order
- 1.01 Roll Call (D'Ambrosia)
- 2.00 Approve or modify the agenda
- 2.01 IEEE SA Patent, Participation, and Copyright policy slides
 - Link to the slides was distributed with the agenda
 - Is there anyone on the meeting who did not read these slides?

3.00 Announcements from the Chair

- Use IMAT to log your attendance
 - Verify that your affiliation is correct for this meeting
 - If you have signed into IMAT with your affiliation, you don't need to announce it before speaking
- Mixed-mode etiquette
 - Please enable mute when you are not speaking
 - Please use the chat function to request being put in the queue
- If you wish to announce your affiliation, say
 - <name>, I am affiliated with <affiliations>, or
 - <name>, I work for <employers> and I am affiliated with <affiliations>

4.06 Annual Subgroup Review

- From IEEE 802 LMSC Policies and Procedures
 - "The scope, duties, and membership of all subgroups shall be reviewed annually by the Standards Committee."
- For 802 WGs and TAGs, membership is determined by the IEEE 802 LMSC Working Group Policies and Procedures
- For IEEE 802 Standing Committees, the membership is determined when the Standing Committee is formed or modified by the LMSC
- On Monday, we reviewed IETF SC, ITU SC, Wireless Chairs SC, Public Visibility SC and 802.18.
- On Friday, we review JTC1 SC, 802.1, 802.3, 802.11, 802.15, 802.19, and 802.24
