**Re:** [This work has been supported by KATS and SKTelecom.]

**Abstract:** [This document proposes some services enabled by low power beacon-enabled mesh networks supporting mobility and QoS.]

**Purpose:** [Technical Contributions on the IEEE 802.15 WNG Task Group]

**Notice:** This document has been prepared to assist the IEEE P802.15. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.

**Release:** The contributor acknowledges and accepts that this contribution becomes the property of IEEE and may be made publicly available by P802.15.

*Services with Low Power  
Beacon-Enabled Mesh Networks  
Supporting Mobility and QoS*

# *Contents*

- Introduction
- Some Scenarios Requiring Mesh Mobility and QoS
  - Healthcare Service
  - ITS
  - Disaster Prevention Service
  - Bridge Management Service
  - Underground Facility Management
- Ways of Enhancing IEEE 802.15.4 for the support of QoS and Mobility
- Conclusion

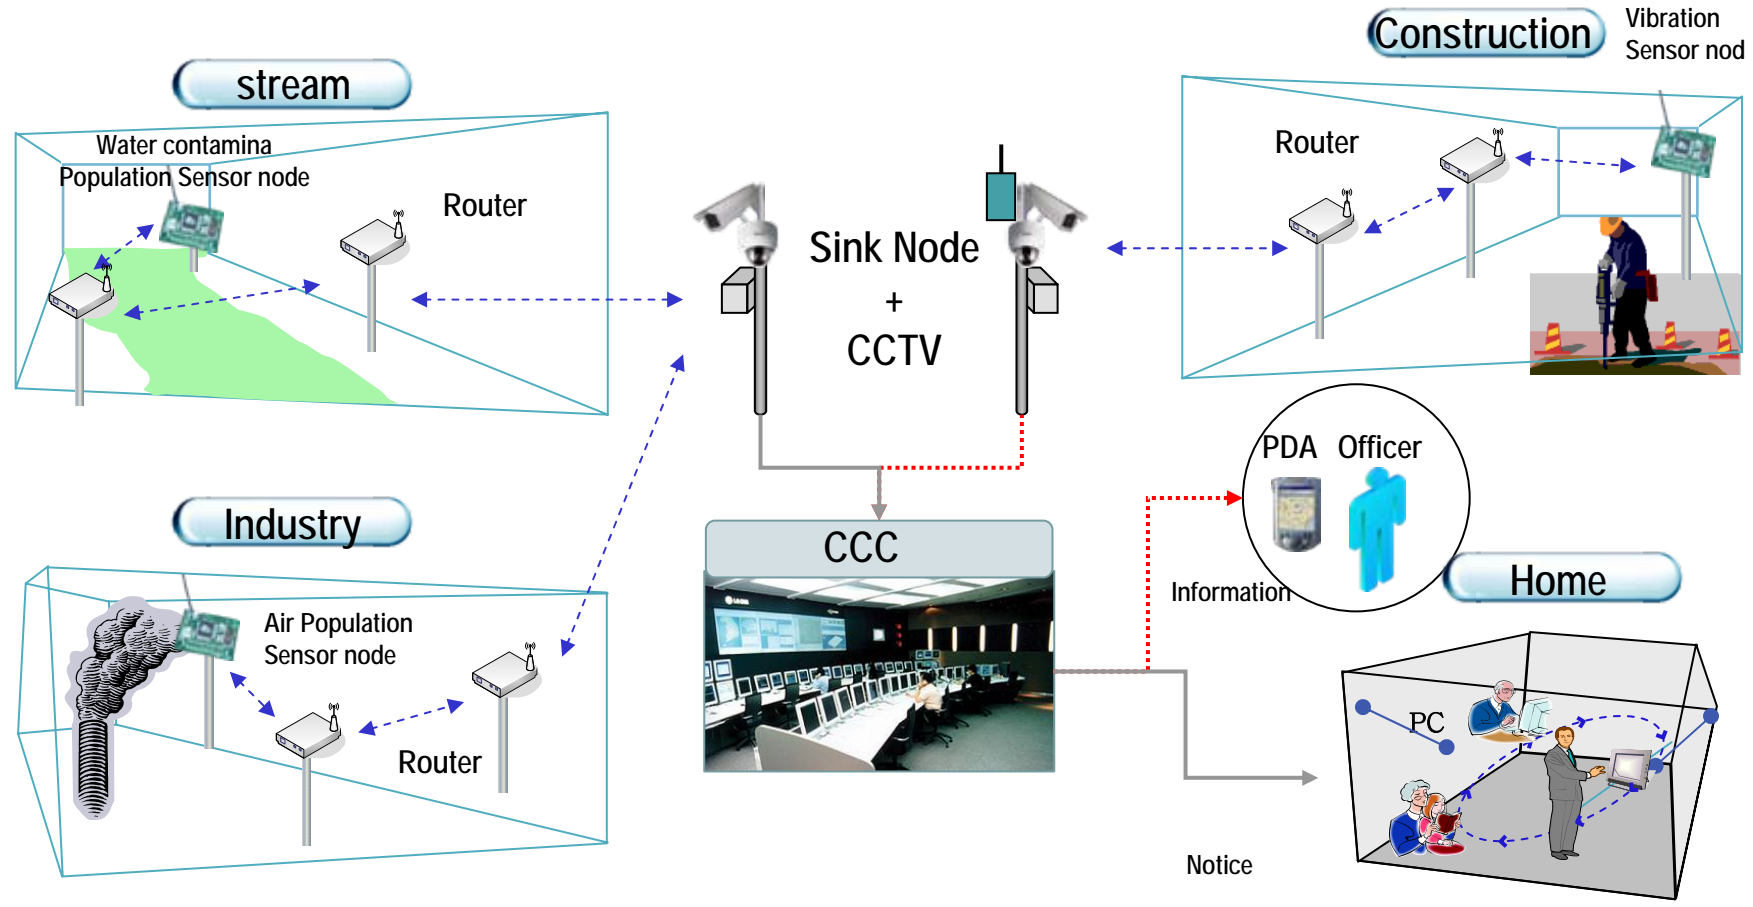

# *Services Requiring Mesh Mobility and QoS*

- Healthcare Service
- ITS
- Disaster Prevention Service
- Bridge Management Service
- Underground Facility Management
- And there are a lot more!

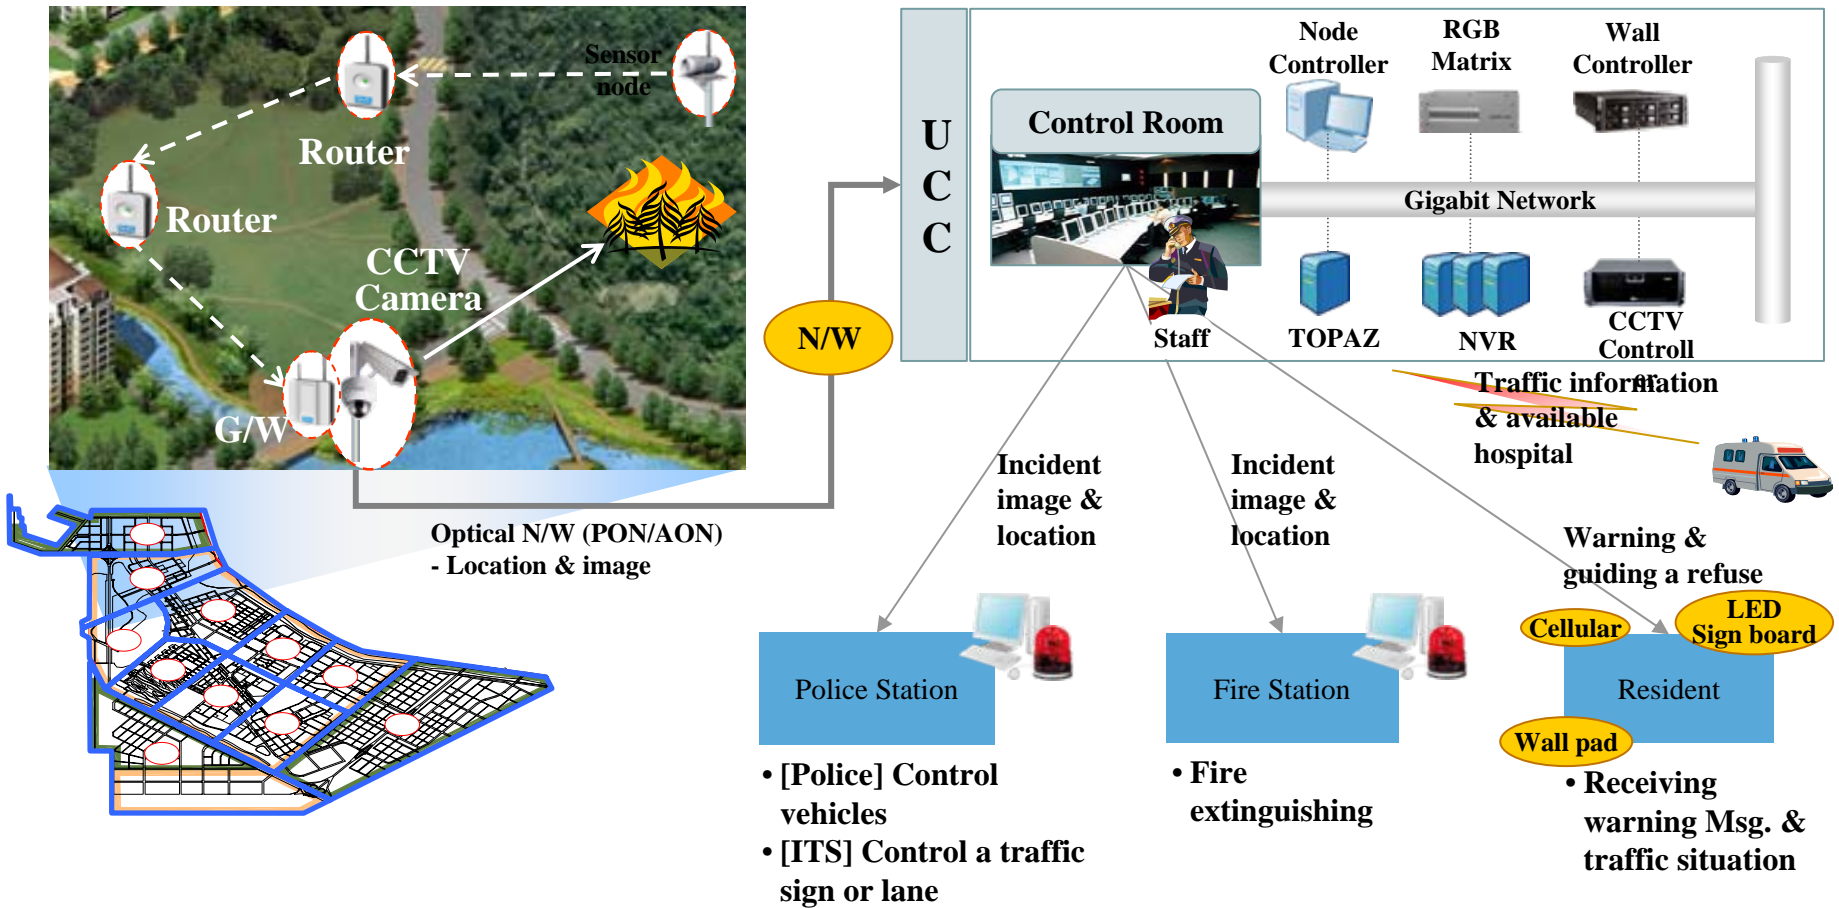

# Intelligent Transport System

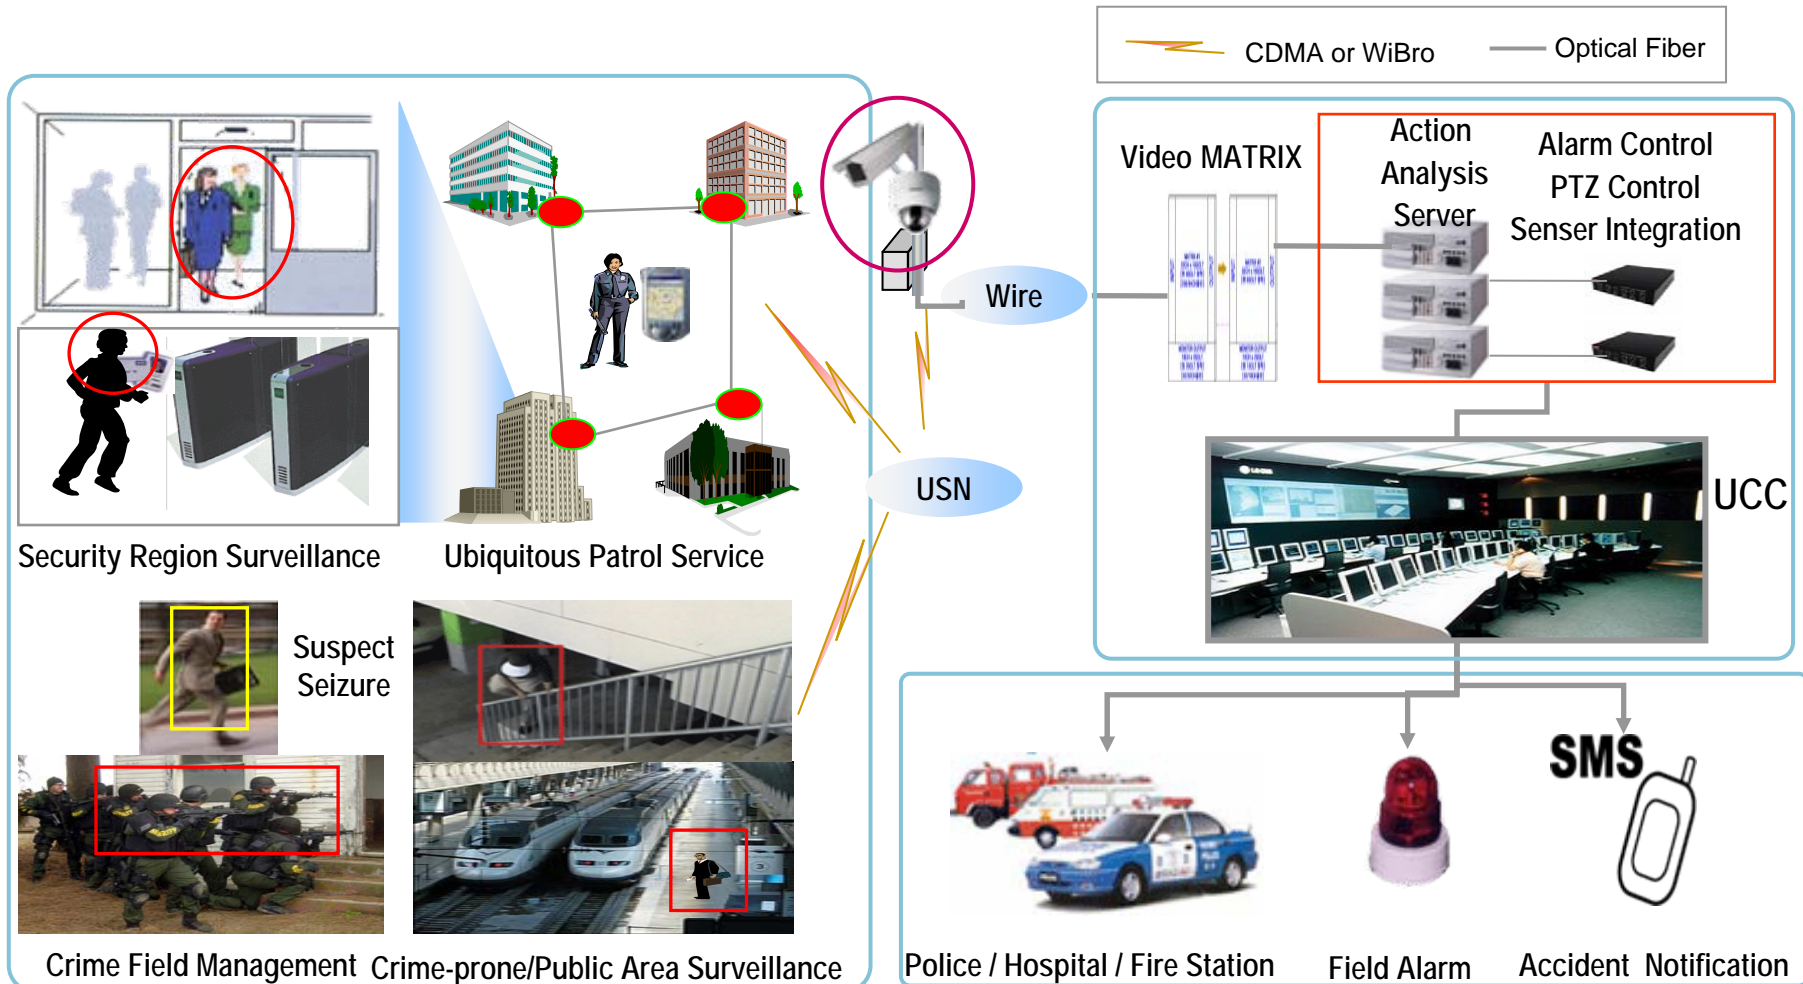

# Environment Management

# Disaster Prevention

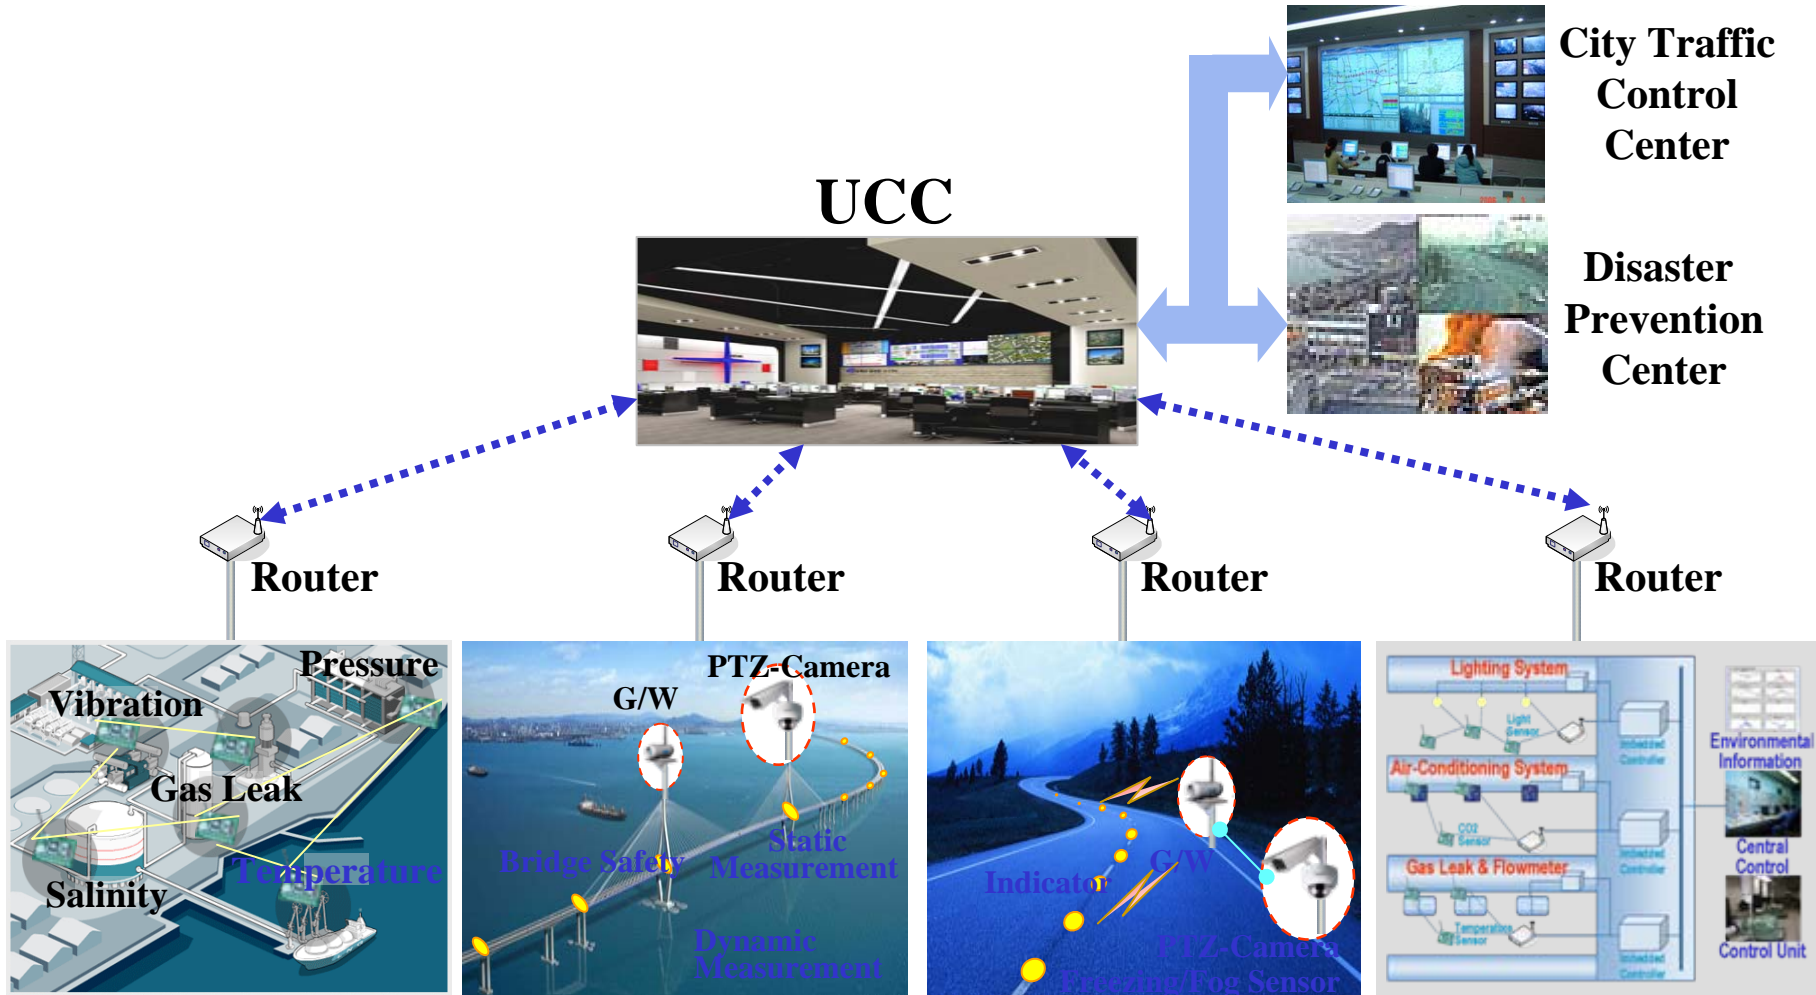

# Crime Prevention

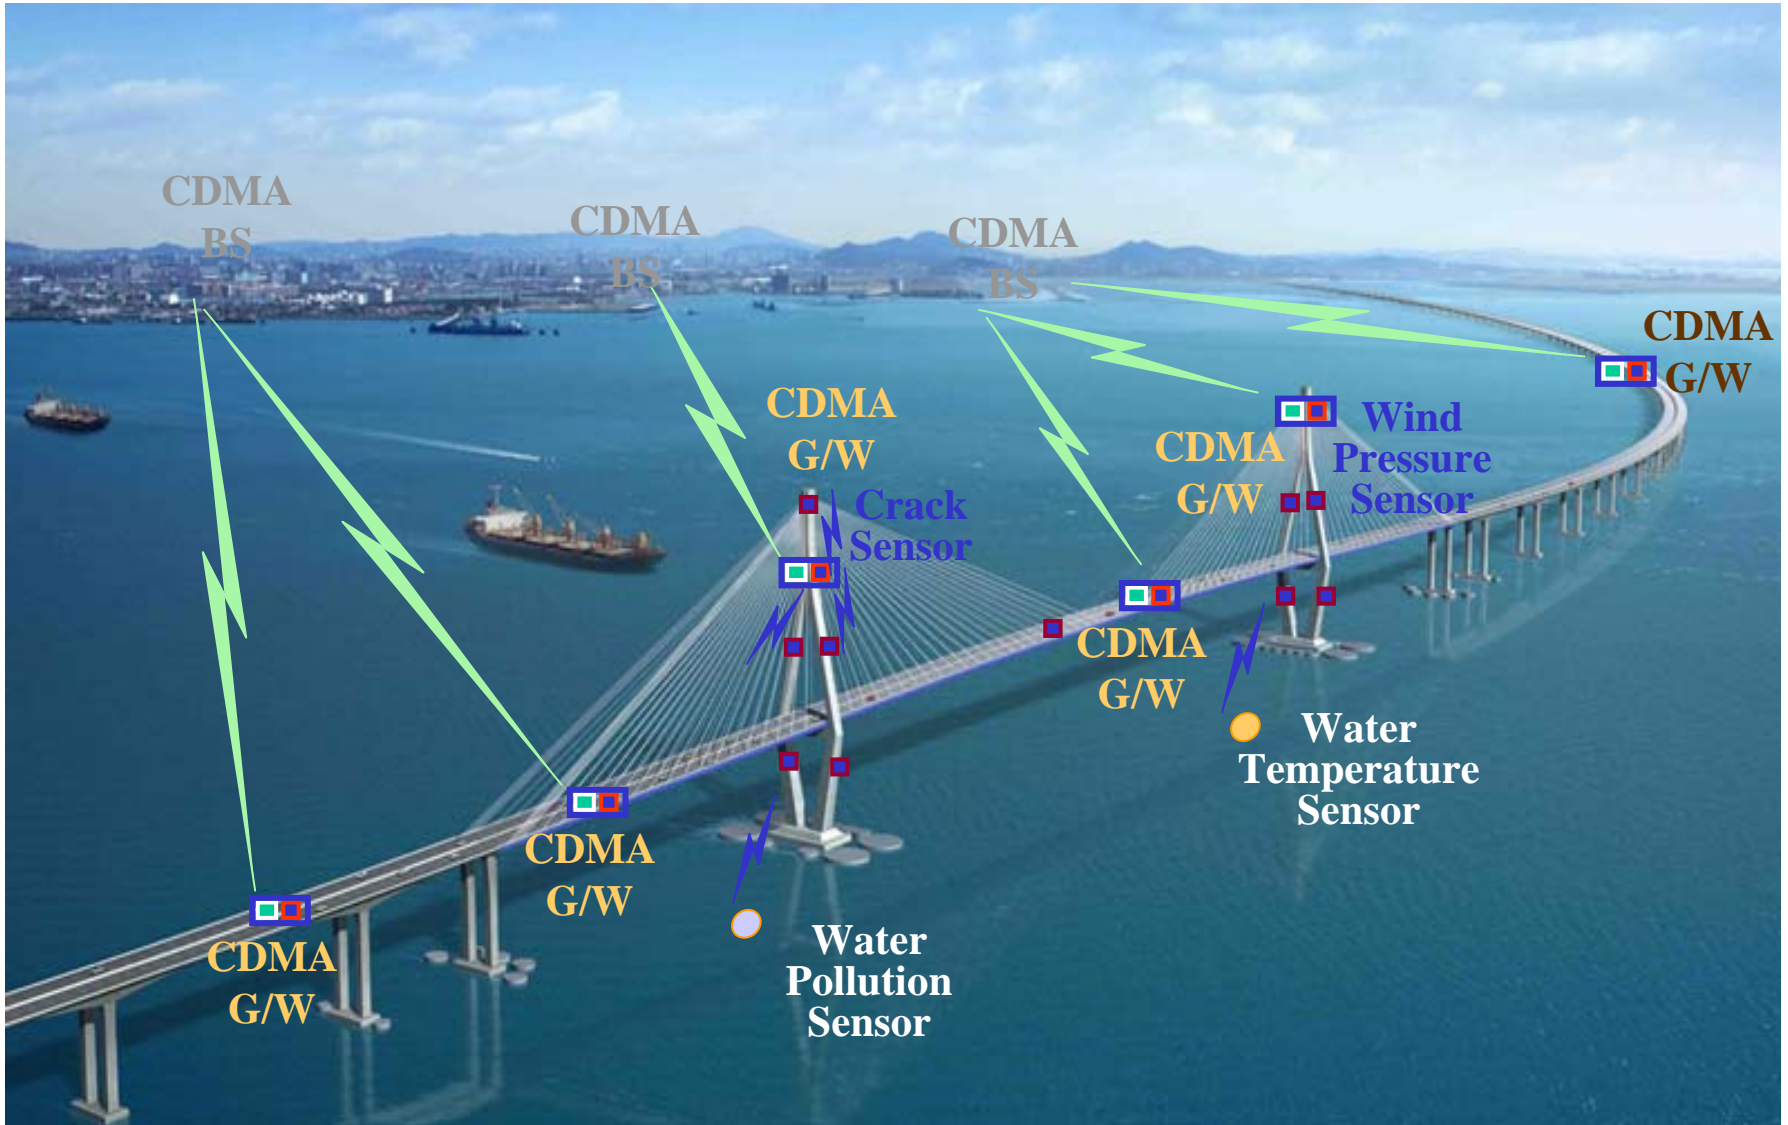

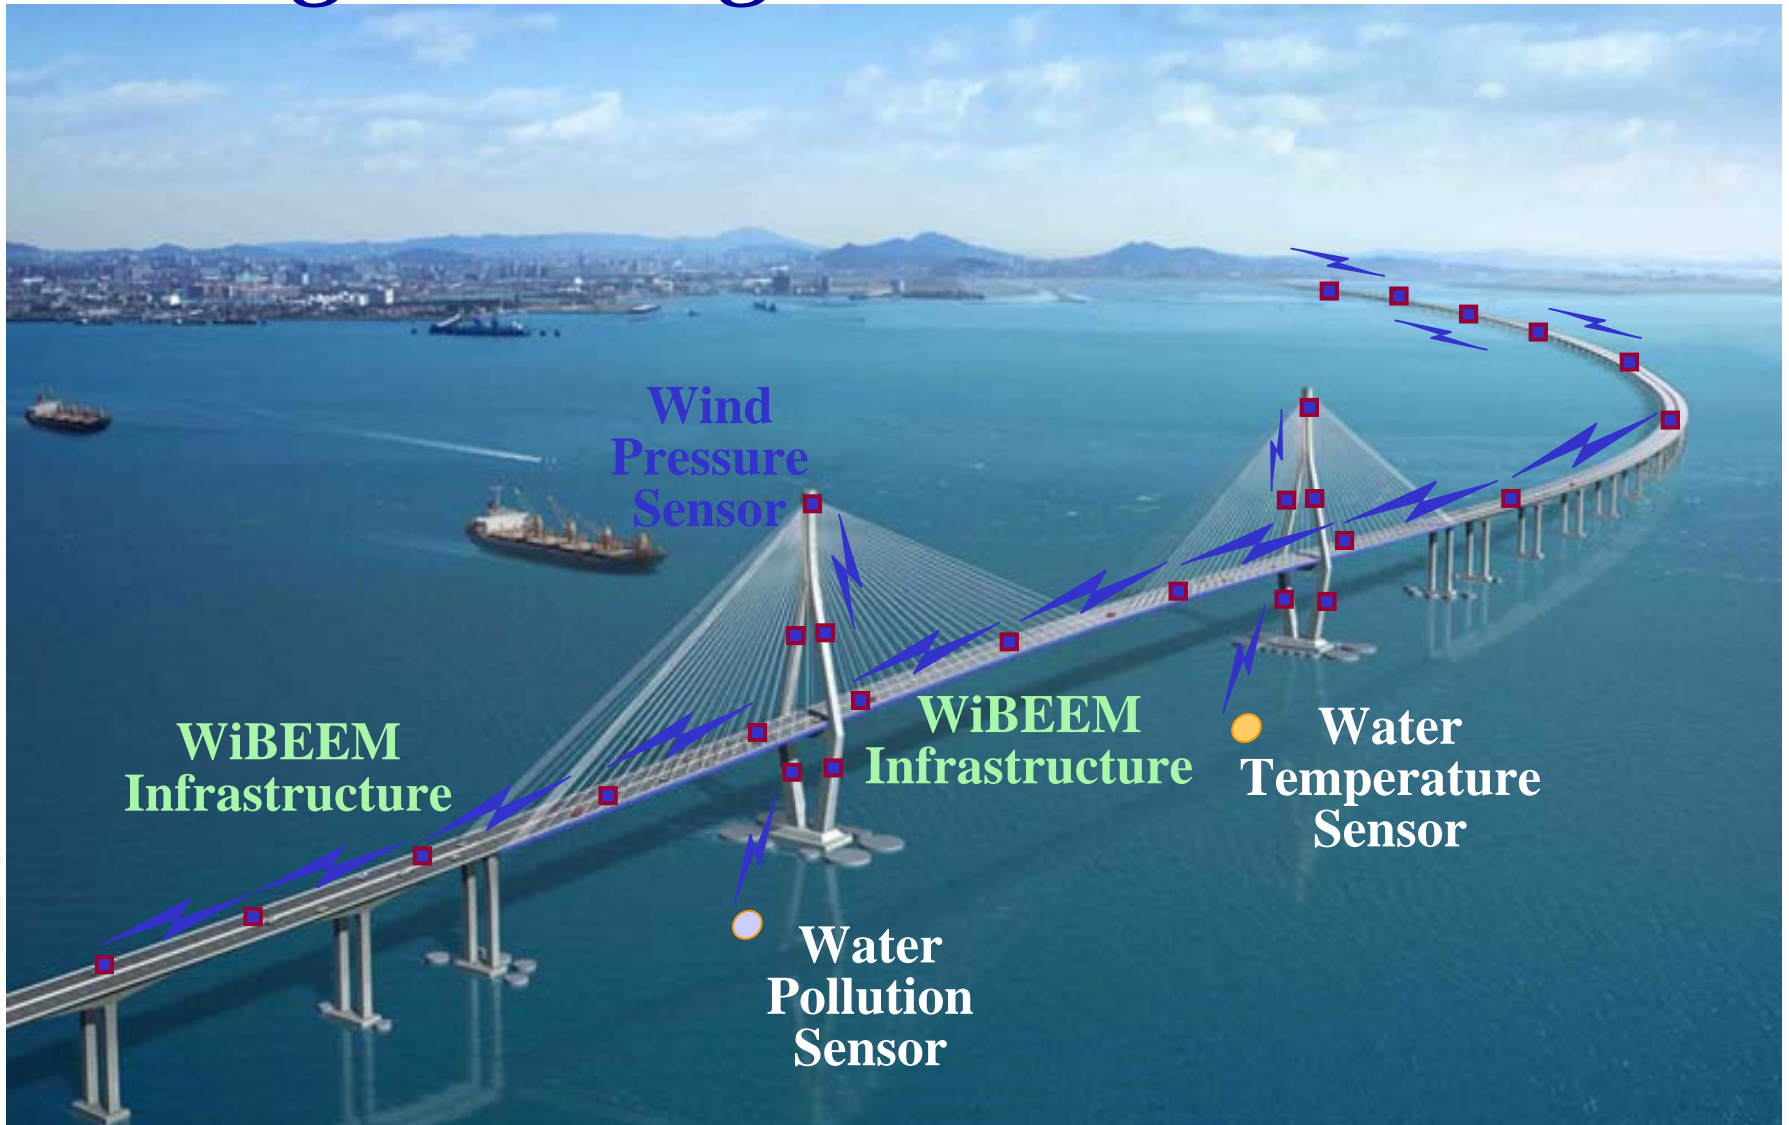

# Facility Management

# *Bridge Management - Today*

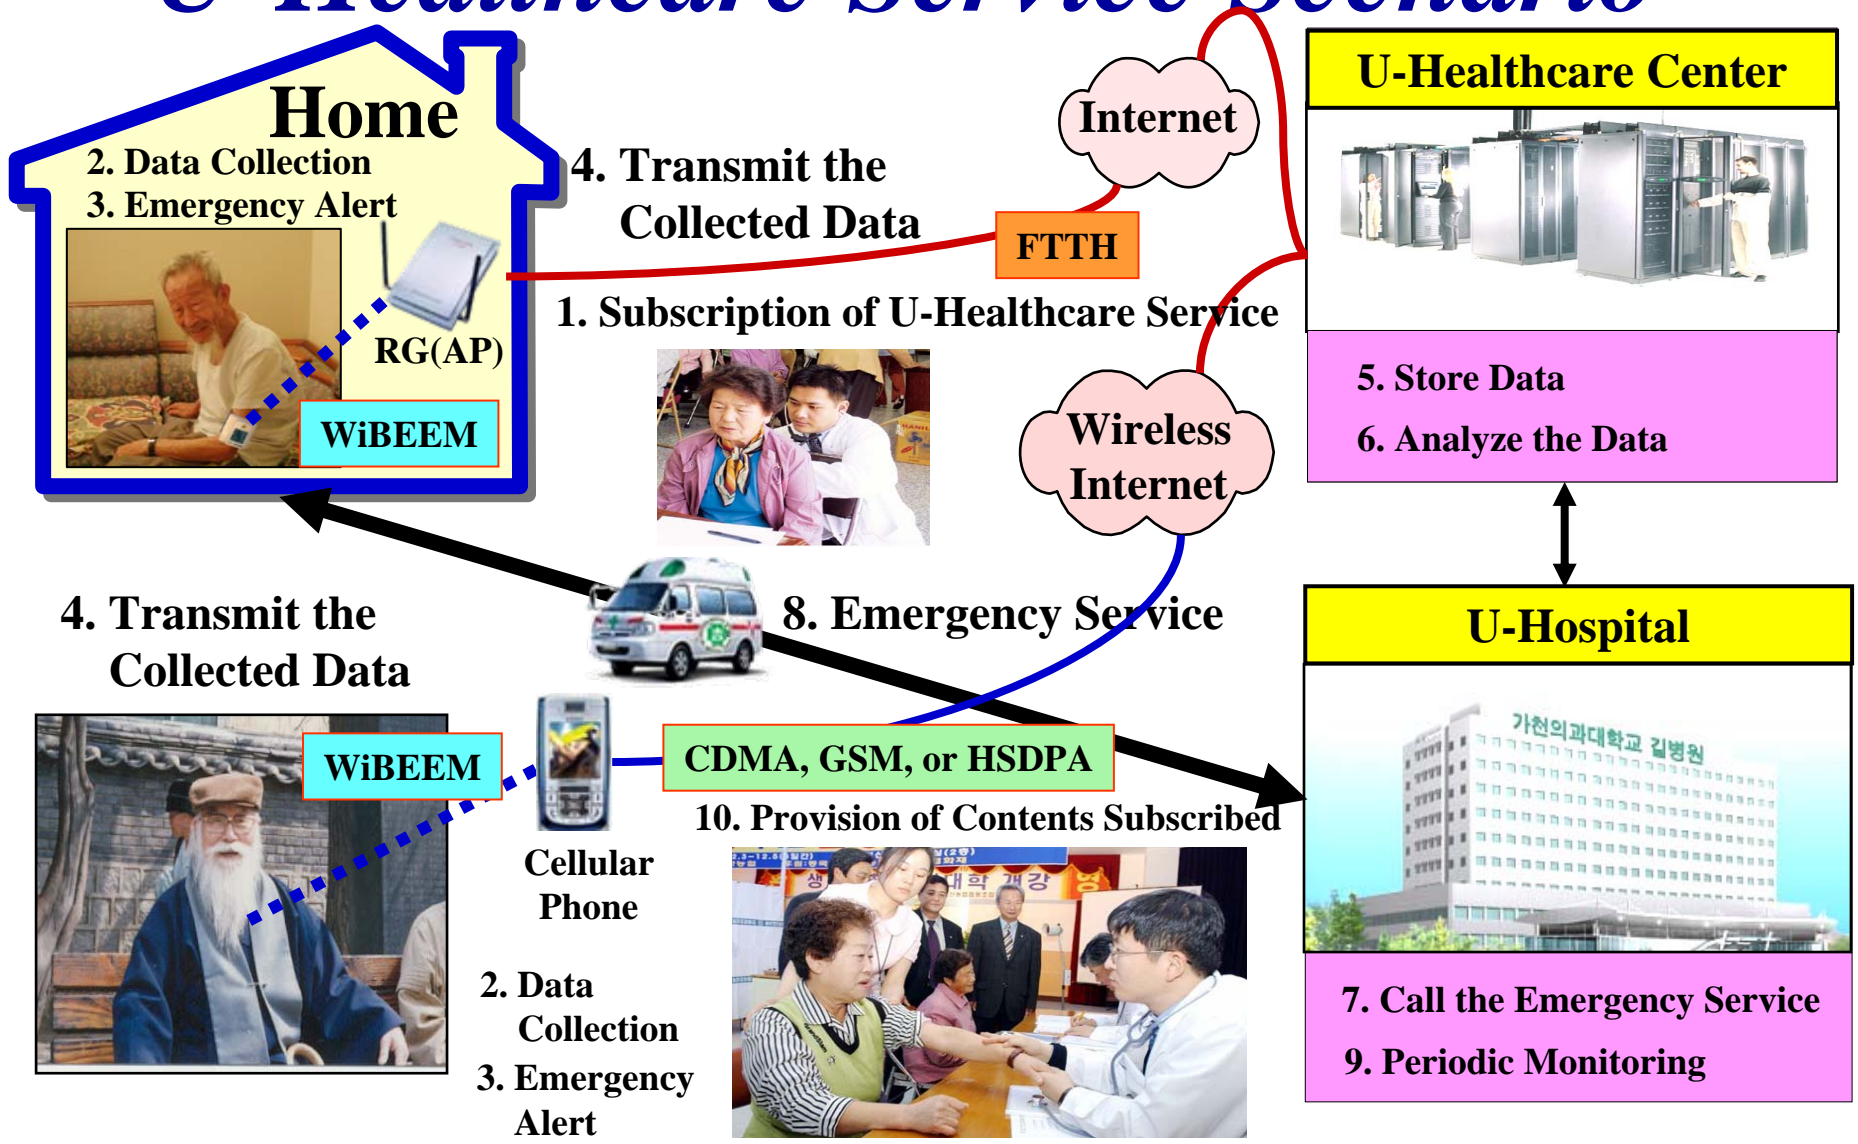

# *Bridge Management - Tomorrow*

# Road Management

# U-Healthcare Service Scenario

# *Healthcare Services*

**WiBEEM**

# *Conclusions*

- There are many examples of services that require device mobility and QoS.
  - Facility management
  - Healthcare Services
  - Disaster Prevention
- Enhancement of IEEE 802.15.4 MAC has to be made that can support QoS and device mobility
- The approach could be CSMA/CA-based multiple access mechanism or TDMA-based scheduled way.
- The best would be the combination of these two approaches.
