January 2020

# WHAT TO EXPECT

The updated myProject application will continue to serve the same functions that it does today while offering you a more modern user interface with better navigation and usability as well as some new features to help our users and better align with IEEE SA policies.

The following slides show some key areas where the application is being updated.

# MYPROJECT LAUNCH

---

**Launch date** : The week of 26 January 2020

- This will result in a ballot quiet period and 3-5 days of service outage

## What to Expect

- Designed to bring you a new user-friendly look and feel but similar functions,
- Enhancements in areas such as the way SA Ballot results are displayed
- Adds features/edits to be in line with governance changes that have occurred since the last myProject release
- An SA Ballot quiet period has gone into effect in order to avoid issues
  - The last day to initiate a new SA Ballot was 17 December 2019
  - The last day to initiate an SA Ballot recirculation was 12 January 2020
- A data freeze will be put into effect as of Sunday 26 January 2020
  - This will allow the data to be transitioned and verified in the new system

## Training Material Under Development

- Updated User Guide and some key function videos will be available by launch date
