1 June 2012

Dear P802.16p Ballot Group:

Thank you for your participation in the IEEE-SA Sponsor Ballot Recirculation of P802.16p/D4, which ran from 5 April to 3 May.

Comments received during the ballot were resolved by the IEEE 802.16 Working Group during its Session #79 in May. We have uploaded the resolutions to the IEEE-SA myBallot system. Some comments refer to documents contributed directly to the 802.16 Working Group. These are available at <https://mentor.ieee.org/802.16/documents?is_group=000p>. When such documents are cited in a comment resolution, a hyperlink directly to the document is provided in the resolution detail.

We are requesting that the IEEE Balloting Center initiate a recirculation of the new draft P802.16p/D5. We are also providing P80216p_D5delta.zip, which indicates the changes in draft D5 with respect to draft D4, and P80216p_D4delta.zip, which indicates the changes in draft D4 with respect to draft D3.

Please take this opportunity to review the material. Since this is a recirculation ballot, you need respond only if you wish to change your initial vote or submit additional comments within scope of the recirculation. No comment will be considered as a valid element of a Disapprove vote unless the voter enters it into the myBallot database and designates it appropriately.

If you have voted Disapprove, I urge you to review the comment resolutions and let us know which, if any, of your comments have been satisfactorily resolved. If you choose to cast an Approve vote, we will assume that all of them are resolved to your satisfaction.

Sincerely,

Roger Marks
Chair, IEEE 802.16 Working Group on Broadband Wireless Access
