- The WG has 14 voting members and two aspirant members as of this meeting

802.21 WG Objective

- IEEE 802.21 is developing an extensible Media access Independent Services (MIS) framework (i.e., function and protocol) that enables the optimization of higher layer services including handover service when performed between heterogeneous IEEE 802 networks. It also facilitates these services when networking between IEEE 802 networks and Cellular networks.

WG Status

- IEEE 802.21/Cor1 Standard was published
- ISO/IEC/JTC1 SC6 published three IEEE 802.21 Standards
- Study Group on 'Network Enablers for Seamless HMD based VR Content Service' was approved in November, 2018
 - Dillon Seo is the Chair of the SG

Objectives for the March Meeting

- Study Group Sessions
- Presentations to other WGs and TAGs
- PAR/CSD Discussion
