Document Title: P1900.5 Status Slides

Document Date: June 22, 2011

Document No: P1900.5_0081_r0_20-22June11_F2F_EndingPlenary.ppt

Notice: This document has been prepared to assist IEEE SCC41 and its Working Groups. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.

Release: The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE SCC 41.

Patent Policy and Procedures: The contributor is familiar with the IEEE Patent Policy and Procedures including the statement "IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard." Early disclosure to IEEE SCC 41 and its Working Groups of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair <jhoffmeyer@ieee.org> as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE SCC 41 Committee. **If you have questions, contact the IEEE Patent Committee Administrator at <patcom@ieee.org>.**

P1900.5 Status

- In progress: Draft Ballot comment resolution.
 - 200 comments (108 editorial;23 general;69 technical)
 - 82 comments must be satisfied (26 e;19g;37t)
 - Starting initial review of comments:
 - Resolution identified for 55 comments;
 - Telecon scheduled for July 12 with comment resolution group to continue resolving comments.

P1900.5 Status

- In progress: 1900.5.1 PAR comment resolution
 - DySPAN PAR ballot completed/approved.
 - Resolve comments and submit for CSSB approval.
 - Comments to PAR addressed and will be sent to DySPAN and CSSB leadership to move toward final approval. Requires slight changes to PAR which will be made by end of week.
 - After approval – need to follow up with outreach activity to solicit interested parties.
